

## **RAI Coder (4484)**

The County of Simcoe

### **Position Summary:**

County of Simcoe Long-Term Care (LTC) Homes Resident Assessment Instrument Long-Term Care Facilities (RAI-LTCF) Coder, under the guidance of the RAI Coordinator, will accurately gather and translate information about residents in LTC into standardized interRAI LTCF assessment codes, using information from clinical records and interviews with residents and staff.

RAI-LTCF is a standardized provincial electronic assessment used to determine resident status, and supplies information to quality indicators used to establish funding for LTC based on resident needs. Key responsibilities of this role include understanding the RAI-LTCF assessment instrument and associated best practice; completing all routine resident assessments following those practices; consult with various data sources including PointClickCare (PCC), Point of Care (POC), and facility user defined clinical assessments to correctly code specific sections of the LTCF; and work to ensure data accuracy and data reflect current resident status.

As a valued member of Long-Term Care and Seniors Services, the RAI-LTCF Coder demonstrates a commitment to resident safety by providing quality services in accordance with the organization's mission and vision.

### **Qualifications:**

- Degree or recognized certificate in a health-related field (e.g., public health, health sciences, physiotherapy, paramedicine, nursing, etc.). This job may be considered for educational equivalency in accordance with County Policy.
  - Degree or postgraduate certificate in research, data analysis, epidemiology, or a related discipline would be an asset.
  - Current RAI-LTCF Credential and/or completion of all CIHI RAI-LTCF training certification is considered an asset.
  - In-depth understanding of the interRAI Long-Term Care Facilities (LTCF) assessment instrument and its underlying principles
  - Strong assessment skills and knowledge of the health care industry
  - Demonstrated ability to analyze and interpret complex medical information from various sources.
  - Strong communication skills to interact with Residents and staff
  - Meticulous attention to detail to ensure accurate coding and data entry
  - Criminal Records Check with Vulnerable Sector Screening that is less than six (6) months old at time of hire.
  - As a condition of employment, candidates are required to submit documented results of TB testing, as per Public Health requirements.
  - Valid G class drivers license and access to reliable vehicle.
- 
- A minimum of one (1) year clinical, data analysis, data entry experience.
  - Proven ability to meet required deadlines.
  - Well-developed oral and written communication skills.
  - Well organized, with excellent time management skills.
