

Mon Sheong Foundation is a non-profit organization operating 1001 long term care beds in Ontario. We are currently seeking for Attending physicians who report to the Medical Director in conjunction with the Home Administrator to take care of at least 32 residents of 1 Resident Home Area in the following homes:

Mon Sheong Stouffville Long Term Care Centre (320 beds):

162 Sandiford Drive, Stouffville, Ontario L4A 3S3

and

Mon Sheong Dr. Paul Woo Long Term Care Centre (224 beds):

168 Sandiford Drive, Stouffville, Ontario L4A 3S3

The qualifications are but are not limited to:

- Registered with the College of Physicians of Ontario with good standing
- Have current knowledge of geriatrics, gerontology, and chronic disease management
- Experience in working in the long-term care centre is preferred

The roles and responsibilities are but are not limited to:

- To provide medical care to assigned residents to comply with the requirements outlined in the Fixing Long Term Care Act 2021.
- To schedule regular visits to the assigned residents
- To participate in the on-call schedule assigned by the Medical Director (if applicable) and shall arrange 24-hour medical coverage for residents for whom they provide medical care
- To participate in after hour on-call schedule
- To complete a medical admission history, physical examination and a plan for medical care within seven (7) days of admission.
- To conduct quarterly medication reviews and documents to update residents' health records
- To work collaboratively with the care team to provide quality care to our residents
- To participate in care planning with families, the care team and residents
- To participate in the scheduled resident care conferences
- To participate in the quarterly Medical Advisory Committee meetings and other committees as required and mutually agreed with the Medical Director or the Home's Administrator
- To committed to comply with the requirements for continuing medical education and peer review.
- To support the Ministry's compliance reviews
